 - If the patient has a guardian, the form may be signed by the patient's guardian or temporary guardian. If there is no guardian, and if two physicians have determined that the patient is incompetent, the form may be signed by the healthcare agent named in the patient's power of attorney.
 - If the patient is authorizing the use of HIV test results, he or she is permitted to sign this form regardless of age. If the patient is under the age of 14, a parent or guardian may sign on his or her behalf. If the patient is age 14 or older, a parent or guardian may not sign on his or her behalf.
 - If the patient is authorizing the use or disclosure of medical records involving treatment for mental illness, developmental disabilities, alcoholism or drug dependence, the patient is permitted to sign this form if he or she is age 12 or older. If the patient is between the ages of 12 and 18, a parent or guardian may sign on his or her behalf. If the patient is under the age of 12, a parent or guardian must sign.
 - For deceased patients, this form may be signed by the patient's surviving spouse or personal representative. If there is no surviving spouse or personal representative, immediate family members may sign. For this purpose, immediate family members are limited to adult children, parents, grandparents, and adult brothers and adult sisters of the deceased patient and their spouses.
 - All individuals signing for disclosure of medical information on behalf of a patient must state their relationship to the patient and may be required to provide proof of legal authority to permit the use or disclosure of the medical information.
- For information about signatures in other situations or answers to questions about these issues, please contact your supervisor or Director of Risk Management and Safety

Federal Substance Use Disorder Treatment Program Privacy (42 CFR Part 2): The federal confidentiality rules (42 CFR Part 2) that apply to substance use disorder treatment and/or referral records maintained by a Part 2 program prohibit any further disclosure of such records without the specific written consent of the individual whose information is being disclosed or as otherwise permitted by 42 CFR Part 2. However, any disclosure of information carries the potential for unauthorized re-disclosure and the information may not be protected by federal privacy standards.

Wisconsin Right to Privacy: Wisconsin law protects the confidentiality of patient healthcare records and indicates when records may be disclosed without your authorization.

General Designation for Disclosure of Substance Use Disorder Treatment Information: I understand I have made a general designation to disclose substance use disorder treatment and/or referral information to individuals or entities with which I have a treatment relationship. No Obligation to Sign: You are under no obligation to sign this form, and you may refuse to do so. Except as permitted under applicable law, Access Community Health Centers care providers may not refuse to provide you treatment or other healthcare services if you refuse to sign this form.

Revocation: You have the right to revoke this authorization, in writing, at any time before it ends. However, your written revocation will not affect any disclosures of your medical information that the person(s) and/or organization(s) listed on the previous page of this form have already made, in reliance on this authorization, before the time you revoke it. In addition, if this authorization was obtained for the purpose of insurance coverage, your revocation may not be effective in certain circumstances where the insurer is contesting a claim. For Access Community Health Centers records, your revocation must be made in writing and addressed to: Access Community Health Centers, Director of Risk Management and Safety, 2901 West Beltline Hwy, (608) 443-5545.

Re-release: If the person(s) and/or organization(s) authorized by this form to receive your protected health information are not healthcare providers or other people who are subject to federal health privacy laws, the protected health information they receive may lose its protection under federal health privacy laws, and those people may be permitted to re-release your protected health information without your prior permission.

Right to Inspect: You have the right to inspect or copy the protected health information for whose disclosure you are authorizing, with certain exceptions provided under state and federal law. If you would like to inspect your records, contact the Patient Accounting department (for billing records) or Health Information Management department (for medical records) at 8501 Excelsior Drive, Madison, WI 53717 or (608) 263-6030, Option 3.

Fees: There is no charge for records requested by and released to other healthcare organizations. A fee will be charged for other requested purposes.

Multiple Formats for Release of Medical Records (Paper vs DVD): You may request records to be provided to you in different formats; however, only one format will be released per authorization. You will be asked to submit a separate request for each format if multiple formats are desired.

Signatures: Generally, if you are 18 years of age or older, you are the only person who is permitted to sign this form to authorize the disclosure of your protected health information. If you are under the age of 18, your parent or guardian must sign this form for you. However, there are many situations in which this general rule does not apply. For more information regarding who is authorized to sign this form, contact: Director of Risk Management and Safety, 2901 West Beltline Hwy, (608) 443-5545.
