

## Tips for Use of Authorization for Release of Verbal Communication AND Exchange of Written Information

**PURPOSE:** To ensure authorization is on file for current and future sharing of information between those listed in Sections 2 and 3 only

Examples for use (but not limited to):

- School issues (ADD, IEP, asthma or other chronic conditions) communicated with and released to school staff
- Working with payers to certify/pre-approve services
- Coordination of community/social services (excluded from continuity of care purposes which doesn't require an authorization)
- Coordination of medical services where special authorization is required: Mental Health, Substance Use Disorder, HIV test results where both verbal AND written authorization is needed

Examples **NOT** for use:

- NOT INTENDED FOR HIM (Health Information Management) TO IMMEDIATELY RELEASE COPIES – ONLY THE PERSON LISTED IN SECTIONS 2 AND 3 MAY SHARE
- Provider to provider exchange of PHI (does not require authorization)
- For the sole purpose of releasing copies of PHI
  - Use form ACHC1280490-DT Authorization for Disclosure of Protected Health Information
- For the sole purpose of authorizing verbal communication
  - Use form ACHC302443-DT Authorization for Verbal Communication and/or to Leave Voice Mail Messages

### Form Completion Tips:

**Section 1** – Use label with MRN and DOB, if not already pre-populated when printing from Cadence

**Section 2** – Check either Access Community Health Centers or a particular clinic/unit or specific person authorized to exchange information

- Least Restrictive: Organization
- Moderately Restrictive: Smaller section within an organization
- Most Restrictive: List an individual person (including first and last name)

**Section 3** – Enter name of organization/person authorized to receive/exchange information with that listed in Section 2

- Least Restrictive: Organization
- Moderately Restrictive: Smaller section within an organization
- Most Restrictive: Individual person (including first and last name)
- Full address should be included to allow for exchange of PHI
- Phone number is only required when authorized to communicate via telephone and/or leave voice mail messages
- **NOTE:** Only one person/organization may be listed per authorization. If multiple people/organizations are desired, an authorization is required for each one, except for mother/father from same household

**Sections 4 and 5** – Include what type(s) of information can be shared, if different from ANY AND ALL – These boxes are pre-checked as both situations must apply in order to use this authorization

- Section 4 – **(Must Be Completed)** Written: Can be defined by condition/diagnosis (asthma, ADD, lung cancer), Date range (past 5 years), or other (specific forms/tests/procedures, etc.)
- Section 5 – Verbal: Two-way communication

**Section 6** – Additional options for voice mail – Check box if patient authorizes voice mail messages to be left at the number listed in Section 3

- If patient authorizes leaving detailed voice mail on the patient's own voice mail, the Authorization for Verbal Communication and/or to Leave Voice Mail Messages (ACHC302443-DT) should be used instead of this form
- Authorization includes any information to be left on voice mail, unless patient specifies on the authorization such limitations (example: no lab results, no OB appointment information, etc.)

**Section 7** – Purpose of disclosure – Care Coordination is prepopulated as a default. If other reason, please enter

**Section 8** – Authorization expiration – Standard expiration date will be one year from date of signature unless a new date is entered – if a longer period of time is requested by the patient, a five-year range is a good timeframe to use

- **NEW:** The option of Indefinite has been removed in order to reduce the risk of unknown authorization over a long period of time (patient forgets about an indefinite authorization)

### Authorization paragraph:

This authorization includes disclosure of information regarding **substance use disorder, psychiatric consults and mental illness, developmental disabilities, genetic testing, AIDS or AIDS-related illness, sexually transmitted infection, and/or HIV test results**, unless the patient chooses to limit the information authorized.

- To do that, they must list the limitations in the space provided

Signature of Patient/Representative: Signed by person legally authorized to sign

Signature of Guardian – Guardianship is a legally authorized designation – see ACP module and scanned document for appropriate legal papers

- Stepparent cannot sign unless legal papers are on file

Date – Enter the date in which the patient/representative/guardian signed the authorization

Patient is/Legal Authority – Complete if Guardian/Representative is completed
