BUILDING HOPE.

CHANGING LIVES.

EXPANDING IMPACT.

ANNUAL REPORT

JULY 1, 2025-JUNE 30, 2026

Access
COMMUNITY HEALTH CENTERS℠

Building hope in our community and changing lives for the better

At Access Community Health Centers, we see the stress and uncertainty our patients and their families face every day.

In addition to the increasing costs of housing, food and transportation, substantial changes in federal legislation and policy will change the way that many people in our community receive the care they need.

For those who access their care through Medicaid/BadgerCare, many will now be subject to work and reporting requirements that could cause more than 60,000 people in Wisconsin to lose their coverage, including 14,000 in Dane County.

Eliminating the Affordable Care Act marketplace subsidies caused monthly insurance premiums to increase significantly, forcing 45,000 people in Wisconsin to find other means of coverage or to go without coverage at all.

In addition, policy changes beginning in October will mean that some immigrants granted official humanitarian protection, including refugees, those seeking asylum and trafficking survivors, will no longer be eligible for Medicaid.

This is a time for us to take action to meet the needs of our patients:

- We are expanding our support for patients, helping them navigate these new requirements and maintaining their health care coverage if possible. We also remain committed to providing care that meets the current needs of patients and expanding care to serve more.

- We are actively working with elected officials, community partners and state agencies to advocate for our patients and to help define how to best serve people in this uncertain time.

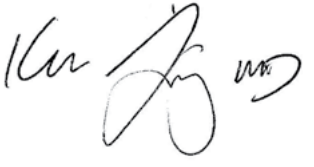

- We are reaching out to patients who may be affected by these changes through our outreach and enrollment efforts. We are expanding this work to ensure that patients can continue to receive the care they need to stay healthy and to live the life they choose.

- We are growing to serve more people than ever before, building an Access clinic in Fitchburg as part of the new YMCA of Dane County. Our Fitchburg Clinic will not only serve 5,000 more people in our community who need a health care home, but will also serve as a model of care for the future.

All these efforts are for one purpose: to help build a healthier and more just community where people have every opportunity to live the life they choose—to work, to go to school and to be healthy.

Though we are faced with new challenges, we know that we are not alone. In the following pages, you'll see the many individuals and organizations that make our work possible.

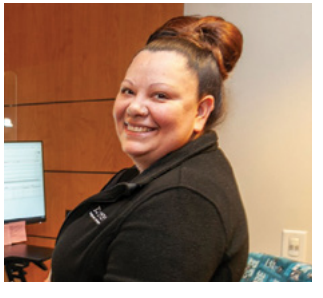

This shared mission among so many people demonstrates the good that can be done when we work together, building hope in our community and changing lives for the better.

Ken Loving, MD
Chief Executive Officer

BUILDING HOPE

"ACCESS HAS DONE A WONDERFUL JOB MEETING ME WHERE I'M AT AND TREATING ME WITH FULL DIGNITY."

– Access Patient

These are challenging times for many in our community. More and more people are struggling to meet their most basic needs, such as rent, food, utilities and health care.

This is especially true for the individuals and families we serve at Access. Our patients represent people of all ages, ethnicities and cultures. Nearly 90 percent of our patients are living in poverty, almost 20 percent have no insurance coverage, and more than 750 are experiencing homelessness.

These are people who are especially affected by the pressures of this complicated time and who need our help the most.

At a time when so many people are facing uncertainty – about their health, their stability, their future – Access is a constant.

As a community health center, Access has a unique ability to meet the needs of the moment. We can offer care to people who would otherwise have no health care available to them and do so in a safe, culturally appropriate environment.

Access offers patients an open and affirming place where they feel welcome, safe and empowered to take control of their future health and well-being.

Access offers resources that meet patients' immediate needs. The discounts and payment options we make available allow us to provide care to all patients, regardless of their ability to pay.

This type of care and support is why a place like Access is so critical in times like these. Access is a place of hope and healing, a place where our neighbors can go when they don't know where to turn, a place where people feel safe, respected and valued.

CHANGING LIVES

"I RECEIVED AN EXCELLENT AND VERY THOROUGH TREATMENT WHICH RESULTED IN GREAT IMPROVEMENT IN MY ABILITY TO WALK AND STAND."

– Access Patient

Access Community Health Centers provided more than 147,000 healthcare visits to 37,000 people last year. This represents 147,000 opportunities to make a difference in the lives of the people we serve.

For more than 40 years, Access has been a voice for those who too often go unheard and a lifeline for those who need care the most. We have grown and evolved our services to accommodate the needs of our rapidly changing community.

At Access, we work hard each day to earn the trust of our patients. When patients trust us, they more fully engage in their healthcare experience.

That engagement is crucial to making a difference in the lives of our patients and our community. It allows us to provide more care for more patients in unique and innovative ways:

- Our integrated healthcare model allows patients to receive medical, dental and behavioral healthcare in one clinic location, providing care efficiently and effectively.
- We offer community resource and financial counseling, and our pharmacies help provide low-cost medications for our patients.
- Our patients receive care in the language of their choice though our interpreter team.
- We offer care regardless of insurance coverage or ability to pay, and our patients can receive services through a sliding scale discount.

The way Access does our work – grounded in community, responsive to the moment, and anchored in trust – ensures we can provide life-changing opportunities for our patients and community for years to come.

EXPANDING IMPACT

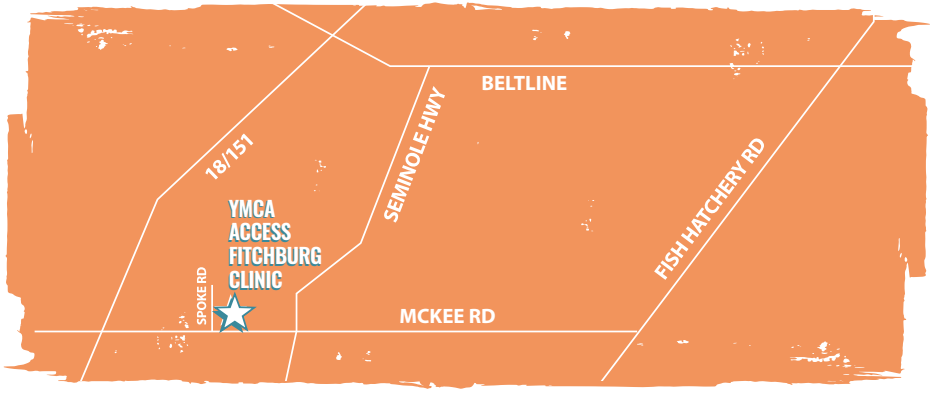

"THIS PARTNERSHIP REPRESENTS EXACTLY WHAT COMMUNITY HEALTH SHOULD LOOK LIKE. BY BRINGING ACCESS' PRIMARY CARE SERVICES INTO THE YMCA, WE CAN MEET PEOPLE WHERE THEY ALREADY ARE AND CONNECT CLINICAL CARE TO THE WELLNESS PROGRAMS THAT HELP OUR PATIENTS THRIVE."

– Ken Loving, MD, CEO

At a time when many people are facing greater needs, Access Community Health Centers is committed to expanding our impact to bring care to those who need it most.

Access is breaking ground to build a 10,000-square-foot clinic, co-located within the new YMCA of Dane County. The new clinic will create a collaborative health and wellness destination for 5,000 new medical and behavioral health patients, including 1,000 people without insurance. Many of the patients will be from the Meadowood and Allied Drive neighborhoods in Madison and the growing city of Fitchburg.

Our Fitchburg Clinic will serve people in new and innovative ways. In addition to our medical and behavioral health services, patients will have access to wellness and fitness services that are too often not available to the people we serve.

Our partnership with the YMCA will bring together Access' comprehensive primary care, behavioral health, and preventive services and the YMCA's community wellness, fitness, and education programs under one roof, serving children, families, and older adults across Dane County.

We have launched our Building Hope, Changing Lives Capital Campaign to raise $6 million to pay for the construction costs and equipment for the project. This represents significant savings from the construction costs of a stand-alone clinic.

The support of our community will make this new clinic a reality, serving people for years to come. The new clinic is expected to open midyear 2028.

REAL CHANGE IS HAPPENING

37,345
ACCESS PATIENTS

- **147,355 patient visits**

The need for Access' services in the community continues to increase. In the past 10 years, Access has been able to serve 10,000 more patients.

5 ACCESS CLINICS

Access has grown to accommodate the needs of our patients and community. Today, we now offer care to people throughout southwest Wisconsin at five clinic locations in Madison, Sun Prairie and Dodgeville.

32%
PATIENTS BEST SERVED IN LANGUAGES OTHER THAN ENGLISH

- **65% of our patients self-identify as persons of color**

Our unique model of care allows Access to provide effective, efficient care that meets the unique needs of our patients.

5,000
ADDITIONAL PATIENTS SERVED AT OUR NEW FITCHBURG CLINIC

Our new clinic in Fitchburg, set to open in 2028 within the new West YMCA of Dane County, will serve 5,000 new patients each year, including at least 1,000 people without insurance.

43%
PATIENTS ARE CHILDREN

- **3,098 Celebrate Smiles patients**
- **7,159 immunizations administered to children**
- **982 prenatal patients**
- **3,239 books to Access patients through Read Out & Read**

In a time of great need, we are happy to provide such important care for children during their formative years to help them secure a healthy childhood and offer opportunities for them to pursue their dreams.

$15 million
SERVICES PROVIDED THROUGH OUR SLIDING FEE DISCOUNT

People most in need can receive services through our Sliding Fee Discount program. This sliding scale discount helps make medical and dental care affordable for those who need it most.

87%
PATIENTS WHO LIVE IN POVERTY

- **19% of our patients have no insurance coverage.**
- **750 individuals who are experiencing homelessness receive healthcare services at Access.**

By working to remove the many challenges that patients face, Access provides care and support that can make a significant impact on a patient's life and offers hope and opportunity for the future.

FINANCIAL OVERVIEW

As the healthcare environment continues to change, Access continues its focus on supporting our patients, our staff and the community. We will continue providing high-quality care and grow to increase our capacity. Our partnerships in the community will also allow us to provide more pathways to care for our patients.

Community Support

Our Building Hope, Changing Lives Capital Campaign brought in approximately $2.7 million in Fiscal Year 2026, which is reflected in this year's bottom line. We are truly grateful for the community's support and look forward to the impact that this new location will have on our patients and our community.

Expanding Partnerships

Access continues to build on the partnerships it has established in the community to increase pathways to care for our patients, especially for those with Medicaid or who are uninsured. Over the past year, we expanded our partnership with Children's Dental Center to three additional sites, allowing Access to care for more than 6,500 children, with an expectation to care for nearly 7,500 children in the upcoming year.

Looking Ahead/Preparing for the Future

Access continues to monitor the wider environment, including regulatory changes such as Medicaid work requirements. To prepare for these changes, Access invested more than $1.5 million to support patients with Medicaid enrollment and grew our Celebrate Smiles team to include in-house enrollment services support.

Access will also monitor the regulatory environment for the 340b Pharmacy Program. This program provides low-cost medications to Access patients. Any changes to this program will require an investment in more administrative compliance support. We continue to advocate for the value of these savings to the communities we serve and are being proactive to ensure we can continue to support this important program.

In the coming year, we are looking at a variety of opportunities to help further the additional infrastructure investments that will be needed to support our current work and our future growth.

	FY2026
